**Overview**

June 2024

# articulate 360 Product Suite

# What is Rise 360?

---

Rise 360 is a web app that lets you create beautiful, fully-responsive courses fast.

Rise 360 can be used to create full-length courses, microlearning, and content such as HR, workplace safety, compliance, sales, and management. Some examples of projects that use Rise 360 include new employee orientation and new manager's toolkits.

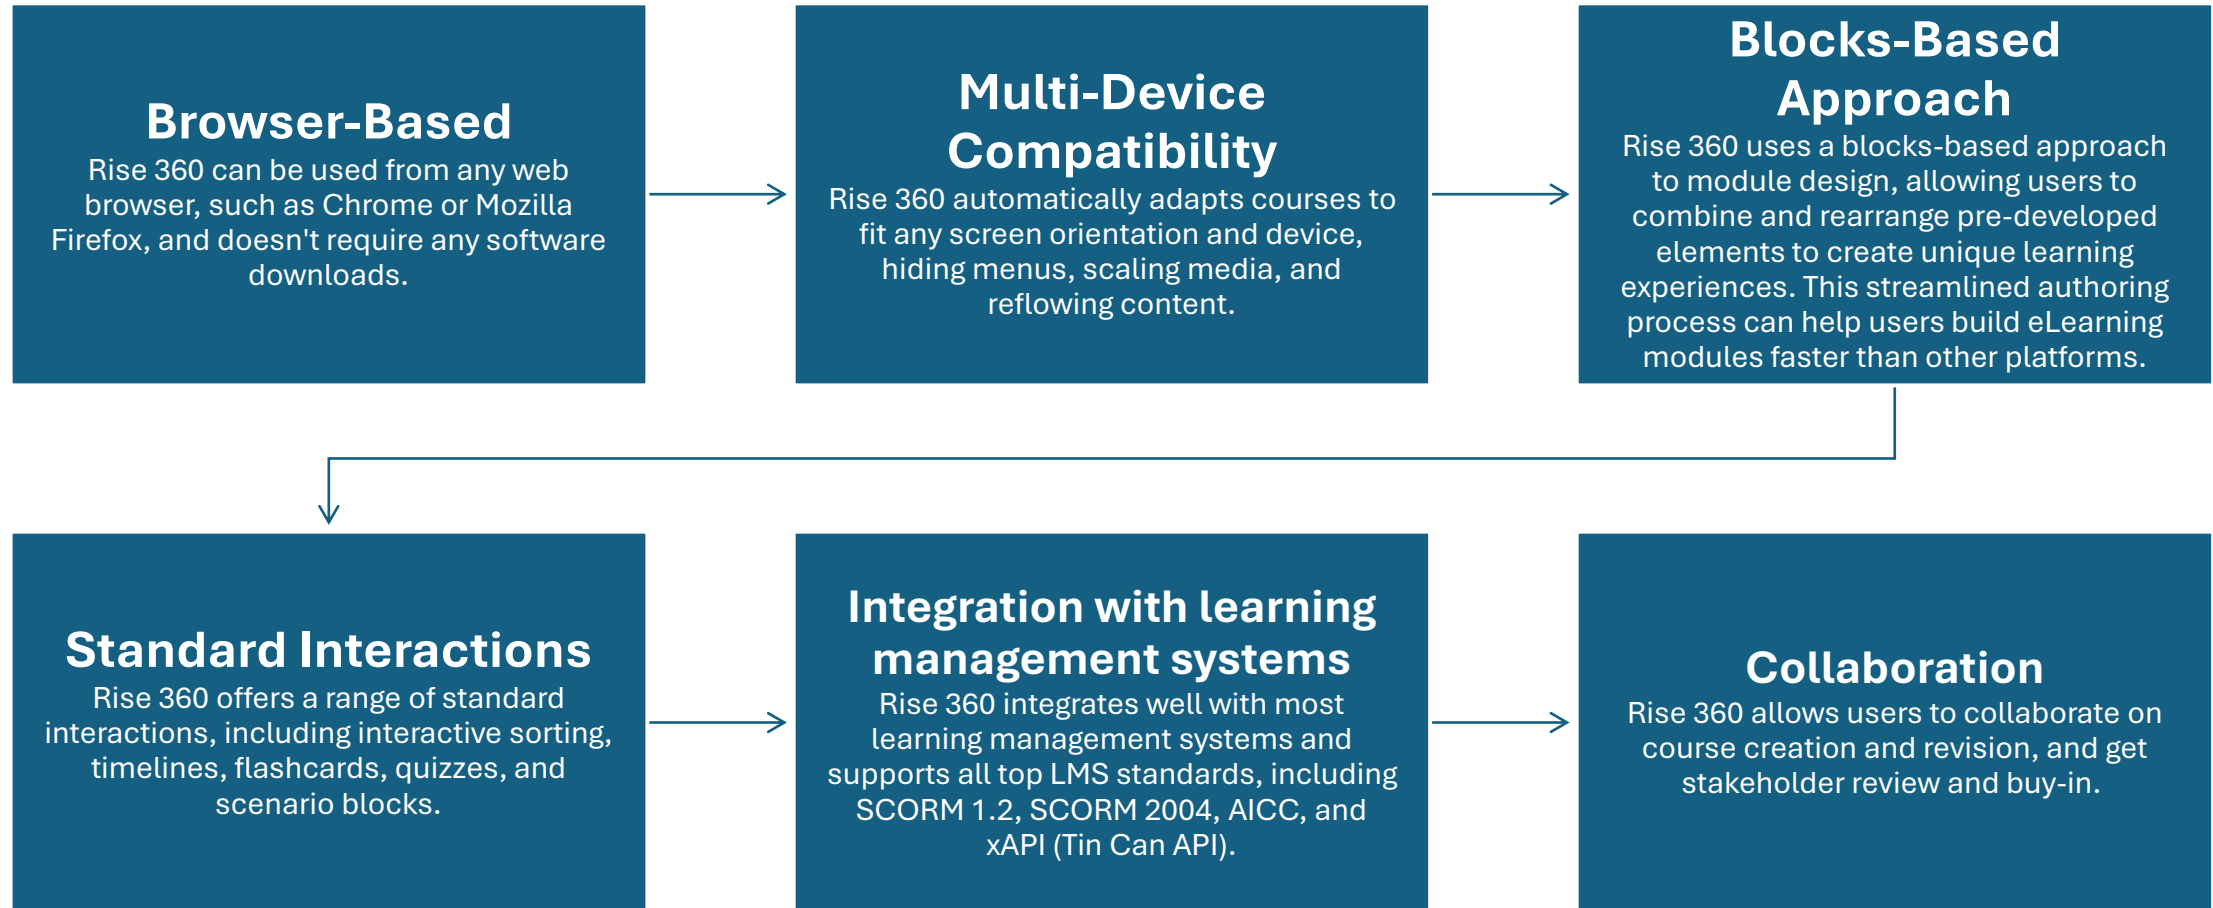

## Rise 360 Supports Team Collaboration

Articulate 360 Teams get exclusive product features that help you collaborate, such as Rise 360 collaborative authoring. Team members can create and edit different lessons in the same course at the same time or take turns fine-tuning the same lesson. You can even give collaborators different levels of access by making them course collaborators or course managers.

# Rise 360 Web Distribution

- If you just need to give someone a quick view of your Rise 360 course, open your course for editing, click **Share** in the upper right corner, copy the shareable link, and send it to your viewers.
- The best option for distributing a web-based Rise 360 course is to open it for editing, click **Export** in the upper right corner, select **No LMS - Web Only** from the **LMS** drop-down list, then click **Export** in the upper right corner again. You'll get a zip package containing all the files for your course. Just extract the zip package, upload the files to your web server, and give learners a link to the index.html file.
- [See this article to learn more about sharing Rise 360 courses.](#)

# Top Reasons to Use Rise 360

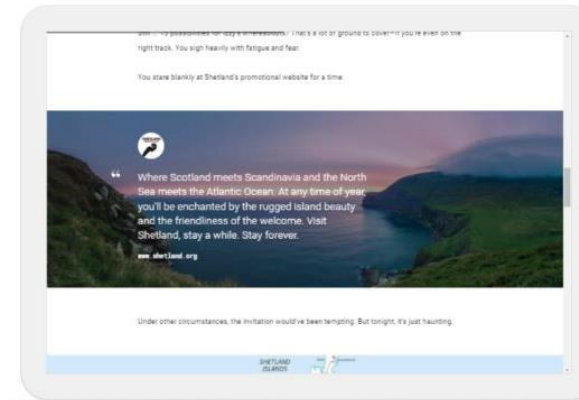

# Rise 360 Images

## Comes with an extensive stock photo library:

Our stock assets come from several sources, and the good news is they're all royalty free for commercial and non-commercial use.

Tablet in Landscape Mode

Phone in Portrait Mod

## Images

Rise 360 uses cutting-edge image compression that reduces file sizes of your uploaded images with virtually no loss of quality. For this reason, we recommend using high-quality images and letting Rise 360 prepare them for web delivery. For example, compare these before and after images.

Communication tips

Uploading audio... Can

When asked to name one trait of "great communicators," people tend to imagine skilled speakers. But communication is about so much more than just talking; it's also about listening, writing, and nonverbal cues.
